CONTENTS

Part One

DEFINING REQUIREMENTS 1

Chapter One INTRODUCTION 3

- 1.1 Facilities Planning Defined 3**
- 1.2 Significance of Facilities Planning 9**
- 1.3 Objectives of Facilities Planning 12**
- 1.4 Facilities Planning Process 13**
- 1.5 Strategic Facilities Planning 19**
- 1.6 Developing Facilities Planning Strategies 21**
- 1.7 Examples of Inadequate Planning 25**
- 1.8 Summary 26**
 - Bibliography 27**
 - Problems 28**

Chapter Two PRODUCT, PROCESS, AND SCHEDULE DESIGN 30

- 2.1 Introduction 30**
- 2.2 Product Design 32**
- 2.3 Process Design 36**
- 2.4 Schedule Design 47**
- 2.5 Facilities Design 62**
- 2.6 Summary 70**
 - Bibliography 72**
 - Problems 73**

Chapter Three FLOW, SPACE, AND ACTIVITY RELATIONSHIPS 79

- 3.1 Introduction 79**
- 3.2 Departmental Planning 80**
- 3.3 Activity Relationships 92**

3.4	Flow Patterns	98
3.5	Flow Planning	101
3.6	Measuring Flow	103
3.7	Space Requirements	109
3.8	Summary	118
	Bibliography	119
	Problems	121

Chapter Four PERSONNEL REQUIREMENTS 125

4.1	Introduction	125
4.2	The Employee-Facility Interface	126
4.3	Restrooms	134
4.4	Food Services	139
4.5	Health Services	144
4.6	Barrier-free Compliance	145
4.7	Office Facility Planning	148
4.8	Summary	158
	Bibliography	158
	Problems	159

**Part Two
DEVELOPING ALTERNATIVES: CONCEPTS
AND TECHNIQUES 161**

Chapter Five MATERIAL HANDLING 163		
5.1	Introduction	163
5.2	Scope and Definitions of Material Handling	164
5.3	Material Handling Principles	167
5.4	Designing Material Handling Systems	169
5.5	Unit Load Design	174
5.6	Material Handling Equipment	191
5.7	Estimating Material Handling Costs	196
5.8	Safety Considerations	197
5.9	Summary	199

Bibliography	200
Problems	203
Appendix 5A	Material Handling Audit Checklist 205
Appendix 5B	Material Handling Equipment 214
Appendix 5C	Automated Guided Vehicle Systems 290
<i>Chapter Six</i>	<i>LAYOUT PLANNING MODELS AND DESIGN ALGORITHMS</i> 298
6.1	Introduction 298
6.2	Basic Layout Types 299
6.3	Layout Procedures 301
6.4	Algorithmic Approaches 309
6.5	Department Shapes and Main Aisles 348
6.6	Simulated Annealing and Genetic Algorithms 351
6.7	Multi-floor Facility Layout 357
6.8	Commercial Facility Layout Packages 361
6.9	The Impact of Change 362
6.10	Developing Layout Alternatives 368
6.11	Summary 370
Bibliography	372
Appendix 6A	ALDEP and CORELAP 376
6.A1	Introduction 376
6.A2	CORELAP 376
6.A3	ALDEP 380
Problems	384

Part Three
FACILITY DESIGN FOR VARIOUS FACILITIES FUNCTIONS 399

<i>Chapter Seven</i>	<i>WAREHOUSE OPERATIONS</i> 401
7.1	Introduction 401
7.2	Missions of a Warehouse 403
7.3	Functions in the Warehouse 404

7.4	Receiving and Shipping Operations	406
7.5	Dock Locations	429
7.6	Storage Operations	430
7.7	Order Picking Operations	447
7.8	Summary	457
	Bibliography	457
	Problems	459
Chapter Eight MANUFACTURING SYSTEMS		464
8.1	Introduction	464
8.2	Fixed Automation Systems	467
8.3	Flexible Manufacturing Systems	469
8.4	Single-Stage Multi-Machine Systems	472
8.5	Reduction of Work-in-Process	474
8.6	Just-in-Time Manufacturing	475
8.7	Facilities Planning Trends	483
8.8	Summary	484
	Bibliography	484
	Problems	487
Chapter Nine FACILITIES SYSTEMS		489
9.1	Introduction	489
9.2	Structural System Performance	490
9.3	Enclosure Systems	493
9.4	Atmospheric Systems	496
9.5	Electrical and Lighting Systems	504
9.6	Life Safety Systems	514
9.7	Sanitation Systems	519
9.8	Building Automation Systems	522
9.9	Facility Maintenance Management Systems	523
9.10	Summary	524
	Bibliography	524
	Problems	525

Part Four

**DEVELOPING ALTERNATIVES:
QUANTITATIVE APPROACHES 529**

**Chapter Ten QUANTITATIVE FACILITIES
PLANNING MODELS 531**

- 10.1 Introduction 531**
- 10.2 Facility Location Models 532**
- 10.3 Special Facility Layout Models 544**
- 10.4 Machine Layout Models 553**
- 10.5 Conventional Storage Models 555**
- 10.6 Automated Storage and Retrieval Systems 566**
- 10.7 Order Picking Systems 578**
- 10.8 Fixed-Path Material Handling Models 592**
- 10.9 Waiting Line Models 618**
- 10.10 Simulation Models 639**
- 10.11 Summary 643**
 - Bibliography 643**
 - Problems 646**

Part Five

**EVALUATING, SELECTING, PREPARING,
PRESENTING, IMPLEMENTING, AND
MAINTAINING 675**

**Chapter Eleven EVALUATING AND SELECTING THE
FACILITIES PLAN 677**

- 11.1 Introduction 677**
- 11.2 Evaluating Facilities Plans 680**
- 11.3 Selecting the Facilities Plans 703**
- 11.4 Summary 703**
 - Bibliography 704**
 - Problems 705**

**Chapter Twelve PREPARING, PRESENTING, IMPLEMENTING,
AND MAINTAINING THE FACILITIES
PLAN 708**

12.1	Introduction	708
12.2	Preparing the Facilities Plan	708
12.3	Presenting the Facilities Plan	720
12.4	Implementing the Facilities Plan	723
12.5	Maintaining the Facilities Plan	731
12.6	Summary	731
	Bibliography	732
	Problems	733
INDEX	735	

No more business as usual

New production techniques, new material handling equipment, larger investments, higher expectations—when it comes to facilities planning there is no room for “business as usual.” Today every company must insist on the highest return on their investment, not just to prosper, but to survive.

Updated with the latest advances, *FACILITIES PLANNING, THIRD EDITION* introduces current practices, and shows how to approach facilities planning with creativity and precision. The text guides you through each step in the planning process, from defining requirements to developing alternative material handling techniques and manufacturing/warehouse operations to selecting and evaluating facilities plans. You’ll learn how to apply quantitative tools and the engineering design principles to achieve highly effective, efficient, and successful plans.

Highlights of the Third Edition:

- Expanded coverage of cost justification, safety, cellular management, and computer-based training brings new trends to light.
- Detailed, real-world examples and problems provide insights into current facilities planning practices.
- New photos introduce you to the latest material handling equipment.
- More quantitative problems and a greater variety of helpful questions help you apply the material to your work.
- Information on software applications, such as VisFactory, introduces you to the new technologies that are affecting facilities planning.
